

Convoy Protest CCG Meeting Minutes

Attendees: Jason Reynar, Chief Laforet, Shelby Askin Hager, Jelena Payne, James Chacko, Chris Nepszy, Joe Mancina, Jason Moore, Chief Mizuno, Deputy Bellaire, Ryan Lemay, Ray Mensour, Deputy Waffle, Deputy Wilker, Andrew Teliszewsky, Phong Nguy, Carolyn Brown, Tyson Cragg, Shawna Boakes, Emily Bertram, Susanne Hutnik

Deputy Bellaire: We had very little protestor activity at the site and nothing yet to violate the injunction. We just got the info for the Emergency Act on where the goal posts are and are going to review it with our legal team. We had some indication that City of Windsor protestor activity was going to happen but we dealt with that. This is still a national security issue across Canada. We are looking at what the access to the US looks like and are looking into a reasonable risk assessment. We are looking to open Huron Church the best we can and are getting ten minute updates on what it looks like to do that, but for messaging from within, it will not be wide open today.

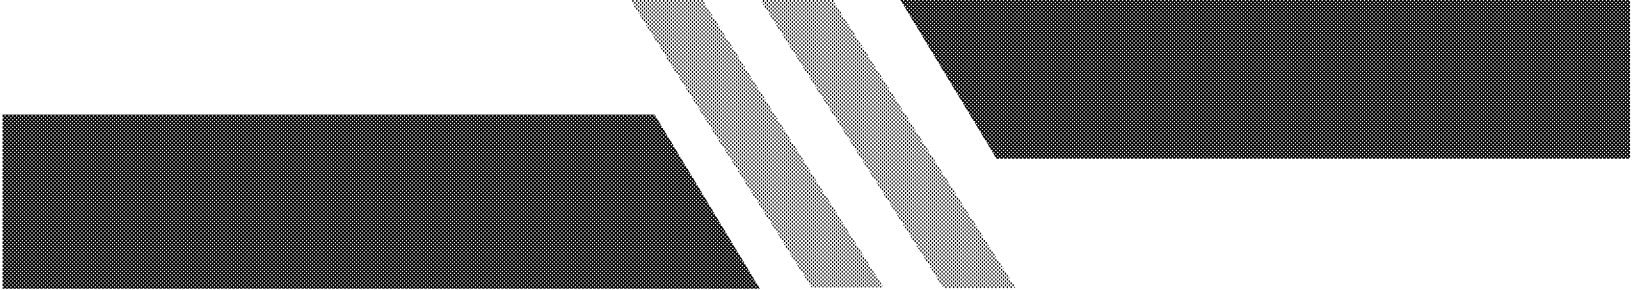

Chief Mizuno: We continue to be on it and are trying to get messaging out to the community that we are trying to open it as soon as possible. There is continual reassessment on this and decisions are based upon the intelligence received.

Phong: Regarding the upcoming storm, in order to maintain the west side, there are a lot of cut through and major intersections that we need to maintain passage for emergency services. We want you to let us maintain one pass through there and allow us access for east and west to maintain emergency services.

Deputy Bellaire: Phong connect with the Command team at the EOC to get that done there. Go there and contact them.

Chief Laforet: No significant updates. In contact with Inspector Crowley. Emily is compiling a list of everything deployed onsite and preparing info on how to manage that ongoing. She is working out of the EOC as a liaison for us.

Ryan: Shifted from 2 to 3 dedicated units. Huron Church and Tec Rd. West end roaming unit and will continue today. Looking for updates and if hospitals need our services we will have to reassess. Our staff is looking for messaging for them and we will connect with Police to make sure our messaging is consistent.

[REDACTED]

[REDACTED]

Chief Laforet: Maps on signage. Spoke with Emily to have a master map created for barricades and signage. Shawna to reach out to Emily. Mike Spagnuolo at the EOC will touch base with Emily directly.

ROUND TABLE

Tyson: Advised by police to stand down on our assets out there. No longer any transit assets there on site.

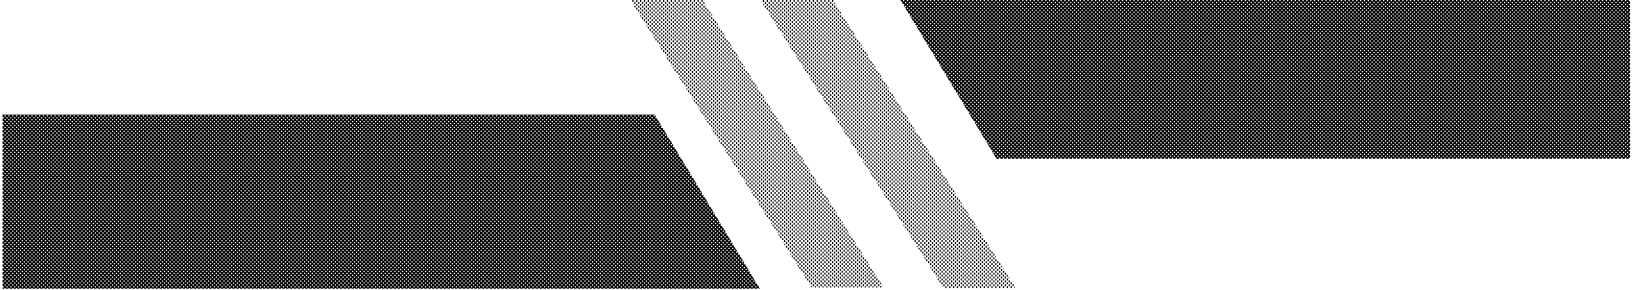

Carolyn: CBSA met with the border operators and have been directed to develop site specific plans to protect the border. At the tunnel looking to upgrade Wyandotte and Park St CCTV cameras and install CCTV surveillance at City Hall Square. CBSA offered to pay for these upgrades.

Jason R: Considering a virtual town hall style meeting for an opportunity for residents to vent. It would be nice to provide a laundry list of how we can support the situation. On the Ops plan we would not weigh in, but what can we do to support businesses? This type of meeting would be to listen to people's concerns as this has been hard on them after COVID.

[REDACTED]

Jason R: Can IT help by supporting businesses who are trying to explain to their customers how to get there and the way to around the barricades?

Shelby: The access issue is a different problem and concern.

Shawna: I met the sign supervisors this morning for the traffic plan about - business open signage. Signs would not have exact names on them but would point traffic down the Daytona access routes and on Malden Rd. Signs to say businesses open - go this way. To be placed beside the road closure signs. We are getting started on doing those as well.

Jason R: Way finding signage like BIAs do to drive traffic. Jason will reach out to Milan. Has anyone spoken to the Chamber on support for the businesses? I will take that on.

Chief Laforet adjourned the meeting at 0948 hours.
